PERSONAL NOTE · ATTACHED

Theo,

You always say you need the facts before you believe anything. So here are the facts: your chart, my chart, and our chart, decoded.

No astrology degree required. I kept the jargon low and the good stuff high.

Read it slowly (I know you will). Then tell me which page got you.

Happy anniversary.

Nora

INTEL CONFIDENCE: HIGH

Both birth times come from birth certificates (Theo 9:01 AM, Nora 3:50 PM). Rising signs, houses, and map lines are the parts of a chart that need an exact time, and you both have one, so the timed parts of this briefing are as precise as the records allow.

FIELD GUIDE · HOW TO READ A CHART IN 60 SECONDS

A birth chart is a snapshot of the sky at the exact minute and place you were born. Every planet was sitting in one of the 12 zodiac signs, and each planet runs a different department of you.

- ☉ **Sun:** your core self. Main character energy.
- ☽ **Moon:** your feelings, and what makes you feel safe.
- ↑ **Rising:** the vibe people pick up the first time they meet you.
- ☿ **Mercury:** how you think and talk.
- ♀ **Venus:** how you love, and what you find beautiful.
- ♂ **Mars:** how you go after what you want.
- ♃ **Jupiter:** where life gets lucky and generous.
- ♄ **Saturn:** where you get serious and disciplined.

Houses are 12 slices of life (home, romance, career, and so on). **Aspects** are the angles between planets:

- ☌ **Conjunct** 0° fused together
- ✶ **Sextile** 60° friendly (dashed on the wheels)
- □ **Square** 90° friction that builds muscle
- △ **Trine** 120° easy flow
- ☍ **Opposite** 180° magnetic pull

HUMAN DESIGN IN 30 SECONDS

A newer system that blends astrology with the I Ching, the chakras, and a little genetics. It hands you an operating manual: your **Type** (how your energy works), your **Authority** (how you make your best decisions), and your **Profile** (the role you play). **Gene Keys** reads the same 64 gates as a path from shadow to gift.

STANDARD DISCLAIMER: THE STARS SUGGEST. YOU DECIDE.

CODENAME
SLOW BURN

Taurus steadiness at the core. Gemini charm on the surface. A Sagittarius heart that wants to see the world.

01 · CORE SELF · 12TH HOUSE

☉ Sun in Taurus

Steady, loyal, patient. You build slowly and you build to last. In the 12th house, a lot of who you are lives behind the scenes: you recharge alone and notice more than you say.

02 · HEART · 7TH HOUSE

☽ Moon in Sagittarius

Your heart wants honesty, adventure, and someone to explore the world with. In the partnership house, you feel most like yourself with a person by your side. Your Moon sits in her Sun sign.

03 · FIRST IMPRESSION

↑ Gemini Rising

Quick, funny, easy to talk to. People meet the conversationalist first; the Taurus depth shows up once they know you.

FIELD NOTES

♀ Venus in Gemini

Your Venus sits in your 1st house, 6° from your Rising: easy charm, quick flirting, and a love language made of words.

☽ ☍ ♀ Moon opposite Venus

Almost exact (0.5°). What you need (freedom, honesty) and what you love (variety, conversation) sit on one axis. You keep love interesting.

♂ Mars in Cancer

Protective. You fight hardest for your people, and your instincts run on feeling. Mars opposes Neptune (0.5°): your drive works best aimed at something you believe in.

☉ △ ♅ Sun trine Uranus

The steady Taurus with a surprising streak. You change slowly, then all at once.

♃ ☍ ♄ Jupiter opposite Saturn

Big dreams on one side, a realistic plan on the other. You can do both, and you need both.

☿ Mercury in Aries

You think fast and say it straight. Your Mercury lives in the house of friends, so your crew gets the unfiltered version.

SECTION 01B · OPERATING MANUAL

Your Human *Design*

Your birth chart is the personality. Human Design is the user manual.

Filled center (any color) = defined: your steady, reliable energy.

White center = open: where you soak up other people's energy.

Numbered dots = your active gates.

TYPE

Projector

ABOUT 1 IN 5 PEOPLE · STRATEGY: WAIT TO BE INVITED

You're the guide: built to see how people and systems work, and to point the way. Your energy is precious, so spend it where you're recognized and invited, not where you have to push.

AUTHORITY

Self-Projected

Your truth shows up in your own voice. Talk big decisions out with someone you trust, and listen to what you say. The answer is in your words, not in their advice.

PROFILE

5/1 · Heretic / Investigator

5: people project their hopes onto you; you're the one they call when something needs fixing. **1:** you need the foundation, the facts, before you commit.

LIFE THEME

Left Angle Cross of Incarnation

Turning experience into meaning: thinking it through (Gate 24), reading people (44), listening and remembering (13), and guiding (7). "Left Angle" means it plays out through relationships.

CHANNELS

- **7-31** **The Alpha:** a leader when you're invited to lead.
- **11-56** **Curiosity:** a seeker and a storyteller.
- **13-33** **The Prodigal:** the listener who remembers everyone's story.
- **24-61** **Awareness:** a thinker who mulls until it clicks.

GENE KEYS · SHADOW → GIFT

LIFE'S WORK	EVOLUTION	RADIANCE	PURPOSE	ATTRACTION
24	44	13	7	46
Addiction → **Invention**	Interference → **Teamwork**	Discord → **Discernment**	Division → **Guidance**	Seriousness → **Delight**

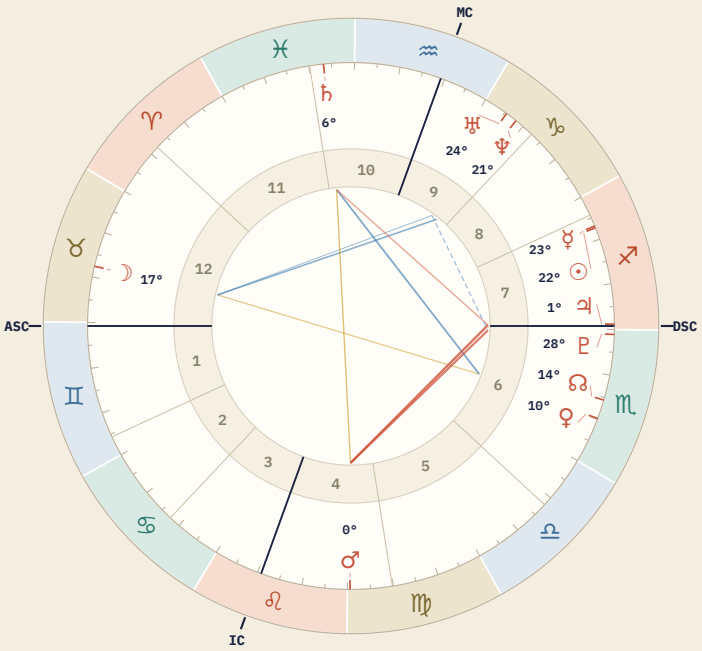

Bonus intel: your Sacral center is open. You're not built for nonstop output, so rest is strategy, not laziness.

SECTION 02 · SUBJECT FILE

Nora

CODENAME
GOLDEN ARROW

Sagittarius fire up front. A Taurus heart that wants roots. Gemini wit holding it all together.

01 · CORE SELF · 7TH HOUSE

☉ Sun in Sagittarius

Optimistic, honest, adventurous. Her Sun sits in her partnership house: she comes alive one-on-one, and partnership is a big part of her story.

02 · HEART · 12TH HOUSE

☽ Moon in Taurus

Her heart wants comfort, calm, and something solid. In the 12th house her feelings run deep and private, and she needs quiet to recharge. Her Moon sits in your Sun sign.

03 · FIRST IMPRESSION

↑ Gemini Rising

Bright, chatty, curious. You share this one: same Rising sign, so the two of you read each other fast.

FIELD NOTES

♀ Venus in Scorpio

Deep, loyal, all-in. She doesn't do casual feelings; when she's in, she's in.

☉ ☌ ☿ Sun with Mercury

Just 0.4° apart. She says exactly what she means: Sagittarius honesty, delivered fast.

♃ Jupiter on her Descendant

Within half a degree. Her partner point holds the planet of luck: she's generous in love, and partnership grows her life.

♂ Mars in Virgo

A doer at home: fixing, organizing, building. Mars squares her Rising almost exactly, so once she decides, she moves fast.

♄ Saturn in Pisces

In her career house, in easy contact with her Venus: she wants work that means something, and she's in it for the long haul.

♇ Pluto in Scorpio

At home in its own sign, and 1.8° from her Descendant: her closest relationships are where she reinvents herself, on purpose.

SECTION 02B · OPERATING MANUAL

Nora's Human *Design*

Her user manual. Short version: she runs on renewable energy, and she trusts her gut once she's slept on it.

Filled center (any color) = defined: her steady, reliable energy.

White center = open: where she soaks up other people's energy.

Numbered dots = her active gates.

TYPE

Generator

ABOUT 1 IN 3 PEOPLE · STRATEGY: RESPOND

The life force: deep, renewable energy for whatever lights her up. She's at her best answering what life brings her, not forcing it. Ask her yes-or-no questions; her gut answers first.

AUTHORITY

Emotional

Her clarity comes in waves. Big decisions get a night's sleep (or three). Yours works differently: you talk it out, she waits it out. Both work.

PROFILE

1/3 · Investigator / Martyr

1: she researches before she trusts. **3:** she learns by doing, and by finding out what doesn't work. Mistakes are data, not failures.

LIFE THEME

Right Angle Cross of Eden

Leaving the garden: growing up through real-world experience, ideas (Gate 11), careful words (12), diplomacy (6), and big emotional adventures (36). "Right Angle" means it's her personal path.

CHANNELS

- **2-14** **The Beat:** direction plus resources; the keeper of the keys.
- **6-59** **Intimacy:** closeness that breaks down walls.
- **34-57** **Power:** instinct plus power; she acts on intuition.

GENE KEYS · SHADOW → GIFT

11	12	6	36	55
Obscurity → **Idealism**	Vanity → **Discrimination**	Conflict → **Diplomacy**	Turbulence → **Humanity**	Victimisation → **Freedom**

Bonus intel: her Sacral is defined and yours is open. She brings the steady fuel, you bring the direction: classic Generator and Projector teamwork.

SECTION 03 · THE COINCIDENCE REPORT

Things that are *not* coincidences.

Intelligence analysts have a word for this many matching data points: a pattern.

EXHIBIT A

SUN-MOON SWAP

Your Moon is in Sagittarius, her Sun sign. Her Moon is in Taurus, your Sun sign. What each of you needs emotionally is the other one's personality.

EXHIBIT B

MIRROR HOUSES

Your Sun is in your 12th house and your Moon in your 7th. Hers are the exact reverse: Sun in her 7th, Moon in her 12th.

EXHIBIT C

DOUBLE MAGNET

Your Venus sits 0.04° from exactly opposite her Sun, and your Sun is 1.5° from opposite her Venus. The classic attraction aspect, running both ways.

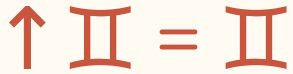

EXHIBIT D

YOUR MOON ON HER SUN

Your Moon sits half a degree from her Sun, and a tenth of a degree from her Mercury. Astrologers call Moon on Sun the classic marriage contact.

EXHIBIT E

SAME RISING

You're both Gemini rising. You read each other fast because you meet the world the same way: curious, quick, talking.

EXHIBIT F

A NEW-MOON "US" CHART

In your composite chart the Sun and Moon land together in Pisces, 3° apart. A new-moon relationship: one heart, one direction.

EXHIBIT G

FIRST-LINE TWINS

Your profile is 5/1 and hers is 1/3. That shared 1st line means you both need the facts before you trust them. Expect research.

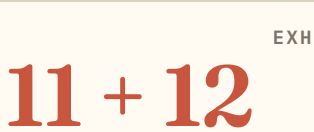

EXHIBIT H

SPARK CHANNELS

Two Human Design channels switch on only when you're together, both running from your Gate 20 to her Gates 34 and 57.

EXHIBIT I

YOU CARRY HER SUN GATES

Her personality Sun and Earth sit in Gates 11 and 12, the anchor of her life theme. Both are active in your chart: your Moon is in Gate 11 and your Venus in Gate 12.

ANALYST CONCLUSION

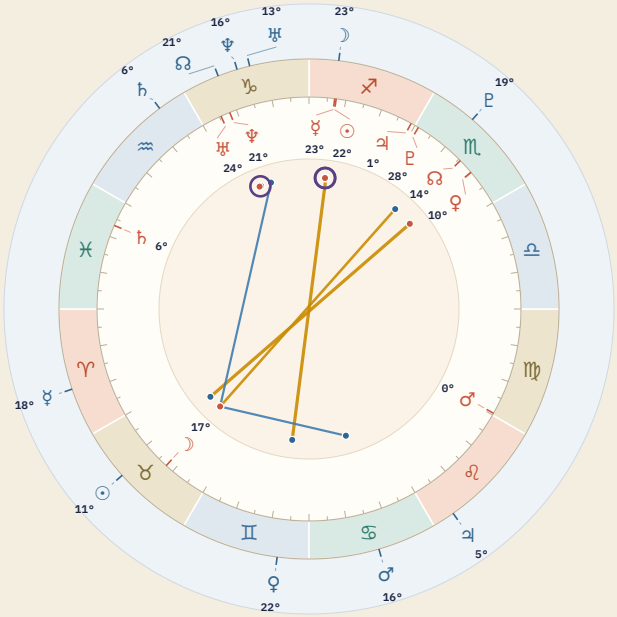

Statistically suspicious. Recommend further investigation over a long dinner.

NOT A COINCIDENCE
ANALYST CONFIRMED

SECTION 04 · CHEMISTRY REPORT

How your charts *talk.*

This is called synastry: lay one chart over the other and see which planets hit it off. Inner ring is Nora. Outer ring is you. The lines show the strongest contacts: colors follow the aspect key on page 2, and rings mark conjunctions.

Theo Nora ORB = HOW EXACT (0° IS PERFECT)

FRICTION (WORTH IT) ORB 1.6°

Your ♇ Pluto opposite her ☽ Moon

You feel things at full depth, and she feels that. This is the spot that runs on trust: intensity is fine, control isn't. (Your Mercury square her Neptune means texts can get misread. Call for the important stuff.)

AMBITION ORB 0.9°

Your ☉ Sun square her Midheaven

You push her career and public goals, and she pushes you to be seen. Friction, the productive kind.

MAGNET ORBS 0.04° · 1.5°

Your ♀ Venus opposite her ☉ Sun, and your ☉ Sun opposite her ♀ Venus

Opposites, the good kind, running both directions. What you find beautiful is who she fundamentally is, and she feels the same way about you.

HOME ORBS 0.5° · 0.1°

Your ☽ Moon on her ☉ Sun and ☿ Mercury

Your feelings sit right on her core self. She lights you up, and when she talks, you feel it.

SAFE HARBOR ORBS 1.4° · 0.9°

Your ♂ Mars sextile her ☽ Moon, your ♆ Neptune trine it

You act on her feelings: you protect, you show up, you make things easy. Neptune adds tenderness and a little magic.

GROWTH PATH ORB 0.7°

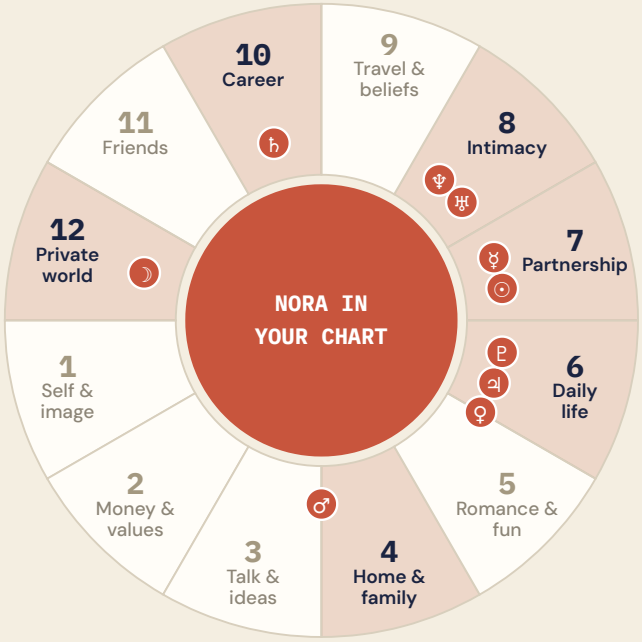

Your ☊ North Node on her ♆ Neptune

Your North Node is the direction you're growing; her Neptune is her dreams and ideals. Her ideals sit right on that path.

SECTION 05 · ROOM ASSIGNMENTS

Where you land in each *other's* lives.

Every chart has 12 houses, one for each area of life. Here's which rooms your planets move into when your charts overlap.

YOUR 7TH HOUSE · PARTNERSHIP

Her Sun and Mercury. She lands right in your partnership house. She reads as a partner from day one, and her words carry weight with you.

YOUR 12TH HOUSE · PRIVATE WORLD

Her Moon. Her feelings go straight to your private inner world, the part most people never see.

THE 5TH / 6TH BORDER · DAILY LIFE

Her Venus. Right on the line between your romance house and your daily-life house: love that shows up on ordinary Tuesdays.

THE 3RD / 4TH BORDER · HOME

Her Mars. Just inside your house of home: she brings the energy for projects, moves, and rearranging the furniture at 11 PM.

HER 7TH HOUSE · PARTNERSHIP

Your Moon. Your feelings live in her partnership house. With you, she feels partnered.

HER 1ST HOUSE · SELF

Your Venus. It lands on her sense of self: you make her feel attractive, seen, and like herself.

HER 12TH HOUSE · PRIVATE WORLD

Your Sun. You light up her inner world, the quiet part she shows almost no one. Your Mercury sits right on the line into it.

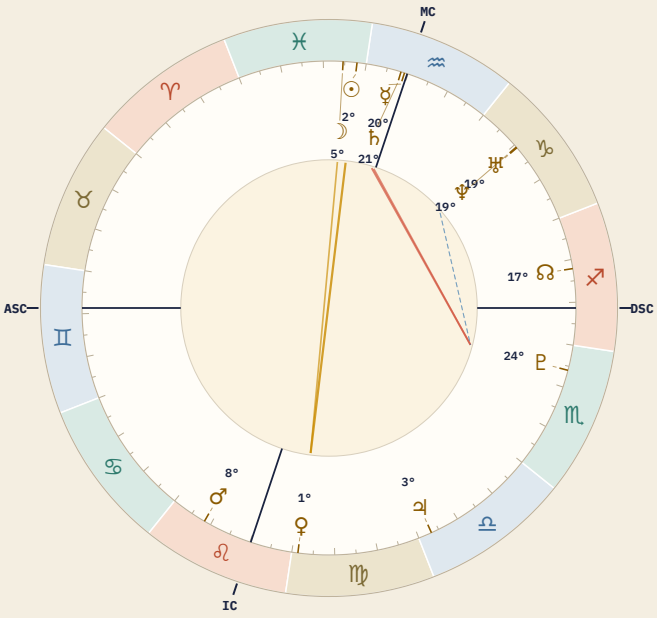

HER 3RD HOUSE · TALK & IDEAS

Your Jupiter. Lucky conversations: you make her curious, funny, and full of ideas.

SECTION 06 · THE “US” CHART

The relationship has a chart *of its own.*

A composite chart blends both charts into one by finding the midpoint between each pair of planets. It describes the relationship itself, like a third person in the room.

THE HEADLINE

A dreamy Pisces heart, a Gemini first impression, and an Aquarius game plan.

HOW THE MATH WORKS

Every planet here is the halfway point between yours and Nora’s. Your Suns meet at 2° Pisces and your Moons at 5° Pisces, so the Sun and Moon of your relationship sit side by side.

THE HEART OF IT

☉ ☽ Sun and Moon together in Pisces

Compassionate, imaginative, a little bit magic. Your heads and hearts point the same way.

HOW YOU LOOK TOGETHER

↑ ♂ Gemini Rising, Mars in easy contact

Funny, quick, always talking: the couple who finishes each other’s sentences, with enough spark to keep it playful.

YOUR PUBLIC FACE

☿ ♄ Mercury and Saturn on the Midheaven

People see a team that talks everything through and builds to last.

AFFECTION IN ACTION

♀ Venus in Virgo, opposite the Sun

Love that shows up in details: coffee made right, the errand already handled.

THE GROWTH EDGE

♄ ♇ Saturn square Pluto

Fear of losing control versus real commitment. Name the hard stuff early and it loses its grip.

WHERE YOU’RE HEADED

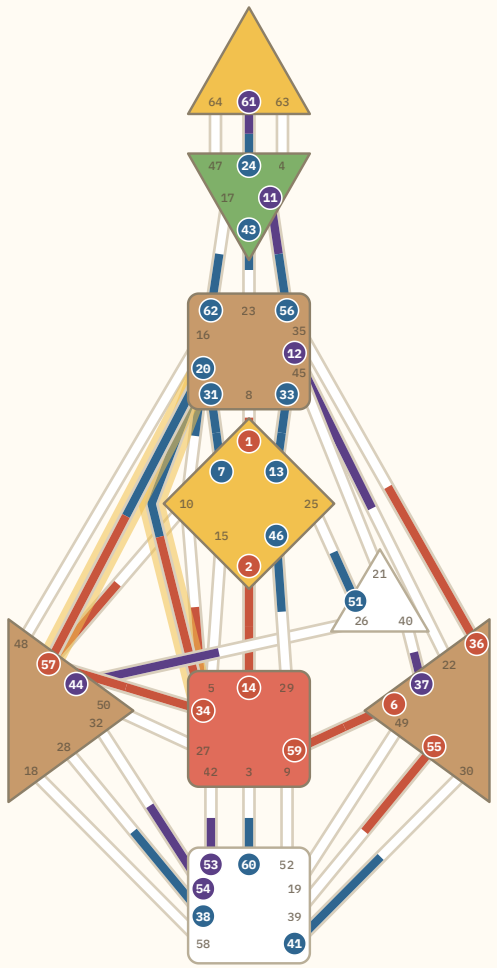

☊ North Node in Sagittarius

Growth through adventure, learning, and a shared philosophy. Travel is part of the plan.

SECTION 07 · COMBINED OPERATIONS

Your Human Designs, *together.*

Stack your two bodygraphs and a new one appears. This is what the two of you run on as a unit.

Your gates · Nora's gates · Both of you · Spark channel

TOGETHER YOU'RE A

Manifesting Generator

Seven of nine centers defined. Translation: as a pair you have energy, voice, and direction. Only the Heart and Root stay open, and their lesson is nothing to prove, no need to rush. Emotional authority, so the big stuff still gets a night.

SPARK CHANNELS · ELECTROMAGNETIC

You each hold one half of a channel, and together you complete it. These are the "can't explain it" attraction points.

20 34 **THE CHANNEL OF CHARISMA**

You bring the voice of the now (20); she brings the power (34). Together: busy, productive, always in motion.

20 57 **THE CHANNEL OF THE BRAINWAVE**

You bring the words (20); she brings the intuition (57). Together: you just know things about each other.

WHAT YOU TEACH HER

7–31 The Alpha: leading when invited. **13–33 The Prodigal:** listening and remembering.

WHAT SHE TEACHES YOU

2–14 The Beat: direction and resources. **6–59 Intimacy:** letting people all the way in. **34–57 Power:** acting on instinct.

DAY TO DAY

She brings the steady energy (her Sacral is defined); you bring direction and insight. It works best when she asks for your read and you wait to be asked. Then sleep on the big stuff: her Emotional authority needs a night.

WHO SETS THE TONE

Curiosity (11-56) and Awareness (24-61) are yours; she holds one gate in each (11 and 61). In Human Design that's a compromise channel: whoever has the full channel sets the tone and the other tends to go along. On ideas and big questions you lead, so make sure she gets the floor too.

SECTION 08 · MISSION MAP: USA

Where you light up *stateside.*

Astrocartography drapes your birth chart over a map. Each line marks where a planet was rising, setting, overhead, or underfoot at the moment you were born. Live or travel near a line and that planet gets turned up.

Your Jupiter IC · Your Venus ASC · Nora's Venus DSC · Nora's Moon ASC · Nora's Jupiter DSC

DASHED = YOU · SOLID = NORA · ASC = HOW YOU COME ACROSS · DSC = PARTNERS · IC = HOME & ROOTS

WHERE VENUS MEETS VENUS

Your Venus line crosses Nora's Venus line in Southeast Texas, about 12 miles from Beaumont and 66 from Houston. Your Venus line also runs 29 miles from Dallas: a city where you'd come across at your most charming.

THE WEST COAST

Your Jupiter line (luck at home) runs within 10 miles of San Francisco, Portland, and Seattle, and 38 from Big Sur. If you ever move west, any of the three could feel like home luck.

HER LUCKY COAST

Nora's Jupiter line runs 3 miles from Charleston and 59 from Asheville, her hometown. Jupiter on the Descendant is luck that comes through partnership: Charleston is a weekend with your name on it.

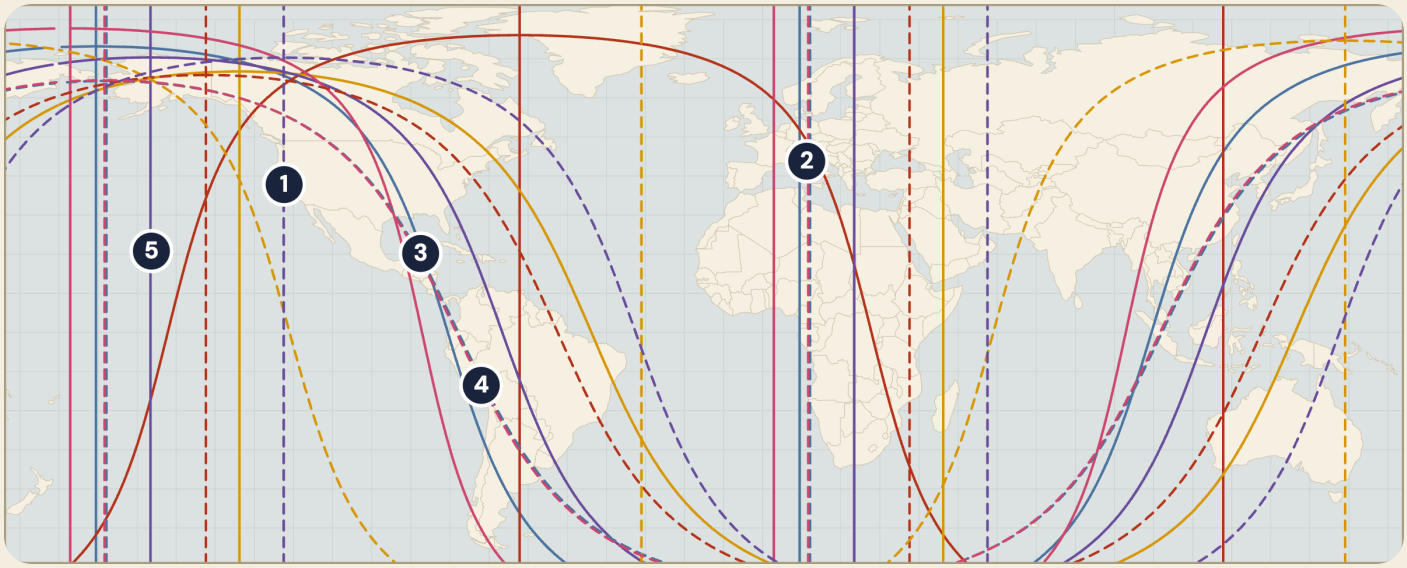

BONUS LINES

Nora's Moon line runs 8 miles from Kansas City and 27 from New Orleans: two cities where she'd feel at home fast.

SECTION 09 · MISSION MAP: WORLDWIDE

The bucket list, *per the sky.*

Every Sun, Moon, Venus, Mars, and Jupiter line for both of you. Five spots stand out.

DASHED = YOU · SOLID = NORA — SUN — MOON — VENUS — MARS — JUPITER

STRAIGHT LINES = MC (OVERHEAD) OR IC (UNDERFOOT) · CURVES = ASC (RISING) OR DSC (SETTING)

INSET: ITALY & THE ALPS

YOUR VENUS · YOUR MOON

HER MOON · HER MARS

1 West Coast, USA

Your Jupiter line, through San Francisco, Portland, and Seattle (see previous page).

2 Italy & the Alps · X marks the spot

Your Venus line runs 17 miles from Siena and 20 from Florence; your Moon line runs 7 from Venice and 17 from Rome. Nora's Moon line runs along Lake Como, about 4 miles from Lecco, and her Mars line crosses your Moon line in the Austrian Alps, 11 miles from Kitzbühel. Love, home, and a little adventure.

3 Tulum, Mexico

Two Moon lines (yours 32 miles away, hers 34) plus your Venus line at 57. The anniversary-trip pick.

4 Cusco & Machu Picchu, Peru

Your Venus line runs 13 miles from Cusco, the gateway to Machu Picchu. One for the bucket list and the photo album.

5 Maui, Hawaii

Nora's Jupiter line runs right across Maui. Luck, generosity, and a very good vacation.

INTEL NOTE: BOTH BIRTH TIMES COME FROM BIRTH CERTIFICATES, SO THESE LINES ARE AS PRECISE AS THE RECORDED TIMES ALLOW. EVERY 4 MINUTES OF BIRTH-TIME ERROR WOULD SHIFT A LINE ABOUT 1° EAST OR WEST.

X MARKS THE SPOT

SECTION 10 · FIELD MANUAL

Rules of *engagement.*

How to love each other, by design.

LOVING NORA (GENERATOR)

01 **Ask, don't assume.** Generators answer best from the gut, so give her yes-or-no questions.

02 **Give big decisions a night.** A yes at midnight is a maybe until morning.

03 **Her Moon is in Taurus:** good food, nature, slow mornings, physical comfort. That's how she refuels.

04 **If she's frustrated,** she's stuck doing something that doesn't light her up. Help her drop it.

HOW SHE LOVES YOU

01 **She sees you.** Projectors need to be recognized, and her Sun sits in your partnership house.

02 **She invites you in.** Your strategy as a Projector is to wait for the invitation, and when she asks for your read, that's it.

03 **She protects your energy.** Your Sacral is open, and rest is part of your design.

04 **Her Venus is in Scorpio:** loyal, deep, all-in. Once she's in, she's in.

TOGETHER

01 **She invites, you guide.** She brings the energy, you bring the direction.

02 **Decide two ways.** You talk it out loud, she sleeps on it. Do both.

03 **Keep adventure on the calendar.** Your "us" chart's North Node is in Sagittarius.

04 **Call, don't text, for the hard stuff.** Your Mercury squares her Neptune.
